**THE SIOUX GARDENS,
T. E. Barber and Sons, Props.
Grand Forks, N. Dak.**

We again present you with our catalogue of foreign varieties of Gladiolus for 1933-34.

During the last two years many fine varieties have been sent out from the far lands, some we think are more outstanding than varieties disseminated here in the United States during that time.

It is our privilege to list several of the new ones and in nearly all cases they have been thoroughly tested out and by their First Class and Award of Merit Certificate and their Championship wins at their shows, we judge they should satisfy the most critical grower, who is searching for exhibition stock and varieties that are a pleasure to grow.

The growers from down under seem to have had more than their share of choice ones appear from their hybridizing and we can thoroughly recommend varieties from New Zealand and those from Australia also, after the latter becomes acclimated. We are offering thoroughly season stock that should do well any place in the United States or Canada as our climates are quite similar.

PLEASE READ TERMS CAREFULLY—on retail cash orders only, extras will be added in bulbs or bulblets of your choice to the extent of the following amounts. 10% added to cash retail orders of \$2.00 to \$5.00; 15% to cash retail orders of \$5.00 to \$25.00; 20% added to cash retail orders of \$25.00 to \$50.00 and 25% to cash retail orders of \$50.00 to \$100.00. In no case will discount be deducted from retail price on any order. All retail orders of \$1.00 or over prepaid, below \$1.00 express collect or postage must be included with order, minimum postage 15 cents. No single item for less than 20 cents.

Divisions may be made in ordering bulbs or bulblets where 10 are quoted, as you see fit. Where quoted by 100 or 1000, one-fourth the amount will be sold at same rate, 12 bulbs or bulblets at 10 times the price of one. Size L is No. 1 and 2, size M is No. 3 and 4 or larger and size S is No. 5 and 6 or larger.

We reserve the right to ship when weather permits, shipping by post, which will be about April 1st or later, express shipments sent at customers risk. We also reserve the right to alter prices, provided we are given a code or the inflation of our currency requires adjustment of list prices as this will likely be the only list we will send out. All stock guaranteed true and free from disease or pest.

WHOLESALE PRICES. We are quoting no wholesale prices in this list but have marked the varieties * we can furnish, so we wish you would select varieties you wish a price on and write us for quotations on the size you require.

We wish to impress upon all growers to treat all stock, regardless of where it is purchased, before planting in the spring. Federal authorities gave us a clean record on diseases and thrip, but one shipment of infested stock will contaminate all stock in storage if temperature is not low enough. Use your own method but treat all stock.

We wish to thank our former customers for their patronage and solicit your future orders, which will receive our careful attention as has been our policy in the past.

FORTY CHOICE NEW FOREIGN VARIETIES, FIRST LISTING

BERICE (Whiteley, N. Z.) This is one of our outstanding new varieties from down under. Color is a rose pink with ivory throat, large crimson blotch, up to 10 open on 20 bud spike, placement and substance excellent, fine early variety that you are bound to like. L-\$4.00, B-40c.

CAESAR (DeGroot, Holland) One of the new flat type of flowers, being a salmon to brick red with carmine blotch, petals slightly ruffled and fold well back opening flower to fullest extent, large flowers on tall stiff stem, excellent propagator, A. of M. Haarlem 1931. L-\$1.00, M-, S-50c, B-10 for \$1.00.

CHRISTINE (Mair) This is one of Mair's choice one and with us the color is light fleshy rose slightly flecked darker with white blotch. Flowers and spike are larger than Mair's average. Healthy grower and good propagator. L-\$1.50, M-\$1.00, S-75c, B-10 for \$1.50.

CORANGAMITE (Errey) Bright salmon rose, shaded deep salmon on outer part of petals, faint buff and yellow shadows in throat, 10 open on tall spike. L-\$1.50, M-\$1.20, S-\$1.00, B-20c.

D. A. HAY (Whiteley, N. Z.) This is the choicest early pink we raise and is the finest of Miss Whiteley's originations to date, the color is a pleasing shade of pink with a cream white throat. Up to 10 large wide open flowers open on tall straight spike. Champion bloom at several shows in N. Z. and will win its share in the U. S. L-\$5.00, B-50.

DR. BUCHAN (Mair) This is a new combination of colors, the three outer petals are scarlet while the three inner petals have a distance violet shade together with a white center makes a fine color combination. L-\$3.00, B-30c.

DR. GLADYS MONTGOMERY (Whiteley) We would class this variety as a deep lavender being the same shade as King Arthur. This variety however is a healthy grower and has more open, taller spike and fully as well ruffled with the florets set up close to the spike without crowding. L-\$2.00, B-30c.

ETURIA (Errey) Tall growing mauve variety, producing excellent spike, carrying up to 12 well open flowers in perfect formation and substance, violet blotch brightens up the whole flower. L-\$3.00.

FRILLED CHAMPION (DeGroot, Holland) Orange scarlet with a dark brownish red blotch on lower petals, beautifully ruffled. Extra early bloomer and good grower. A real champion, large wide open flowers on strong, tall, always erect spike, L-\$1.50, M-\$1.00, S-75c, B-15c.

GATE OF HEAVEN (Pfitzer) The richest and deepest yellow from this well know originator. The florets of this deep yellow are large and well spaced and beautifully ruffled, strong grower and very good propagator. L----, M-\$2.00, S-\$1.50, B-40c

GERTRUDE SWENSON (Swenson, Aust.) The color of this Gladiolus is a beautiful shade of mauve with a white blotch on lower petals and a light mauve feather. Ideal exhibition variety, placement perfect, blooms of fair size and holds well to the tip of spike. Numerous wins of champion bloom at shows in Australia places this variety well to front in exhibition varieties. B-\$1.00, 6 for \$5.00.

HUNTSMAN (Symons, Aust.) Fine exhibition scarlet with white throat, long straight spike which opens up to 10 at once. A. of M. Ballarat. S-\$1.00.

KINGSFORD SMITH (Whiteley) Tall straight grower with beautifully ruffled florets. Color is a light yellow ground with reddish purple blotch, up to 10 open on long spike. This variety was greatly admired by all visitors this season. A. of M. Burnley, Australia 1932. L-\$1.00.

LADY ALICE FERGUSON (N. Z.) A new bright orange scarlet with white blotch, 8 to 10 flowers open on a tall straight spike, is ideal for exhibition. L-\$2.00, M-\$1.50, S-75c, B-20c.

LA VICTORIA (DeGroot, Holland) Purest blood red self, massive flowers that open flat, immense size and fine substance, rugged grower. L-\$2.50, M-\$1.50, S-\$1.00, B-25c.

LILLIAN RUTTER (Whiteley) Beautiful salmon self, large flower on tall spike, flowers well ruffled. L-\$1.00.

LISBETH (Errey) The pale fleshy petals are flecked with salmon and the orange buff throat is lined with carmine, about 10 well formed flowers on tall well formed spike. A. of M. Burnley Test Garden, Aust. 1933. L-\$1.00, M-75c, S-50c, B-10 for \$1.00.

MAHOGANY (Mair) Mahogany red with lighter throat and lighter lines, many large flowers open on tall spike, up to Mairs standard, early and prolific. L-\$1.00, M-75c, S-50c, B-10 for \$1.00.

MARY ROSE (Errey) This variety is tall and is very reliable in the production of long nicely formed spikes. The flowers have a ground color of pink, which is overlaid with rose in the center and towards the outer edge of the flower. L-\$2.00.

MISS NEW ZEALAND (Mrs. Julyan, N. Z.) (See illustration) Miss New Zealand is likely the most outstanding Gladiolus originated to date and certainly the most outstanding variety ever sent out from down under. The fact that impresses us most is that every grower in N. Z., Aust., and Canada that have grown this variety have recommended it very highly. The long tall spike spires up to six feet from medium sized bulbs, the buds are well spaced and even look too far apart before the blooms appear but when the large round 7 to 8 inch blooms appear with 8 to 10 open you have a perfect specimen with no crowding effect common in most large flowered types. Being a mid-season variety it will be ideal for show work and from report and observations there will be very little competition for this variety when shown with regular exhibition varieties as very few will show one-half the florescence that a well grown spike of Miss New Zealand will show. Being a seedling of Marmora one can judge the vigorous growth and production of this variety. At the Ballarat Test Garden, Aust., a new classification had to be formed to show this variety and they have placed it in the mammoth class and last season was the only variety in any class to receive the highest rating of a First Class Certificate. In all shows where even an ordinary spike has been shown it has received the Championship award as it dwarfs all other known varieties. As a cut flower it is ideal as it opens to the last bud and maintains its size well out to the last bloom. The substance is of the best and the whole effect is very refined as there is no crowding of bloom one finds in the majority of large types. Growers who favor the large types cannot help being impressed by Miss New

Zealand. The color is apricot salmon suffused with rose, distinctive throat blotch of the coloring of a ripe peach making a pleasing color combination. H. O. Evans writes me that he would class it in the pinks and that confirms our observations. First class certificate has been awarded from the following societies, Nelson Hort. Society, Marlborough Hort. Society and Ballarat Test Garden. Had this same variety been originated in the United States the price would have been several times higher than it is being offered by us. Medium size bulbs being offered at \$30.00 each, no large, small or bulblets for sale and no trade considered as our stock is limited.

MOANA-NUI (Doney, N. Z.) This is a seedling of Mrs. Dr. Norton inheriting the beautiful shades of cream and pink of its parents, tall grower, large florets, broad overlapping petals, splendidly formed, eight open as a rule and placement ideal. Stands the hot sun without flecking. S-\$4.00.

MORONGO (Errey) This is a grand exhibition variety which carries about 12 perfectly placed flowers on a tall straight spike. Color is a bright salmon with a yellow scarlet lined center. Very outstanding in Errey's new ones. L-\$2.00, M-\$1.50, S-\$1.00, B-20c.

MRS. WHITELEY (Whiteley, N. Z.) Large intensely ruffled flower of excellent substance on tall spike with many open. Color is pure white with faint lavender feather in throat, one of Miss Whiteley's best seedlings. L-\$2.00, M-\$1.50, S-\$1.00, B-20c.

MRS. W. McGAVIN (Whiteley, N. Z.) White ground, tipped pink, violet feather in throat, heavily ruffled, similar to Mrs. Whiteley in general confirmation. L-\$2.00, M-\$1.50, S-\$1.00, B-20c.

NAOMI (Errey) Waved flowers of clear salmon pink, powdered crimson center touched with cream. Tall and strong grower. L-75c, M-50c, S-30c, B-10 for 60c

NELLIE HEWITSON (Whiteley, N. Z.) Very promising new one as the color combination is most outstanding, cream base, outer part of petals are blushed deep pink, huge orange red blotch, edges yellow, heavily ruffled. 8 to 10 large round flowers of fine substance on tall spike. Greatly admired by all visitors. L-\$1.00, M-75c, S-50c, B-10 for 75c or 100 for \$6.00.

OMAKA (Mrs. Julyan, N. Z.) Firy orange scarlet which does not fade in the sun, beautiful throat blotch of deeper coloring. Strong grower, 8 to 10 open on tall straight spike. S-\$2.00.

ORANGE PRINCESS (DeGrott, Holland) Purest salmon orange, slightly lighter in throat, small crimson feather deep in lower petals, wide open flowers of wonderful form and perfectly arranged, slightly ruffled. A. of M. Haarlem. One of the finest orange colored flowers, fine cut flower, and exhibition variety. L-50c, M-30c, S-20c, B-10 for 40c.

PHILLIP WHITE (Whiteley, N. Z.) A glorious deep crimson self that will fall in the dark red class. Many large well shaped flowers on tall spike. L-\$1.00, M-75c, S-50c, B-10 for 75c.

POLAR ICE (Pfitzer) Tall strong growing pure white Gladiolus with 8 to 10 open. Comes very highly recommended as one of Pfitzer's best whites. M-\$1.00, B-20c.

RAHIRI (Doney, N. Z.) Fine orange with small white center and carmine feather. Remarkable color but will need care as the color will burn in the sun. Tall and Large. S-\$2.00.

RED ADMIRAL (DeGroot, Holland) Clear scarlet with deep blotch, was awarded best red in England, early and prolific. This will be an ideal commercial variety. L-50c, B-10 for 40c.

SALMON EMPEROR (DeGroot, Holland) Lighter orange salmon than Orange Princess with darker velvety blotch. 7 to 8 open on fine straight spike. Flowers flat wide open type and is strongly ruffled and heavy substance that stands handling the best of any commercial flower we know. M-30c, S-20c, B-10 for 50c. **SEESTERN (Pfitzer)** Light salmon pink with effective orange blotch, feathered light yellow, strong grower with 6 to 8 open. S-\$1.00.

SUSSEX (Errey) Large salmon pink flowers with crome yellow center, rich color combination. About 10 open flowers and well placed on tall spike. L-\$1.25, M-80c, S-60c, B-10 for \$1.50.

SOUTHERN CROSS (Whiteley, N. Z.) For all around purposes, in hot and cold weather, in damp and dry weather, this variety has proven its superior qualities over any other red we raise. The spike is tall, 20 buds on straight spike and 8 to 10 large round flowers open, of fine substance and does not burn in the sun. This variety is most prolific and early, making a very fine combination. This deep red self is just one that stops the traffic. L-\$1.00, M-75c, S-50c, B-10 for \$1.00 or 100 for \$8.00.

TOM SMALL (Mair) A new scarlet with bold white blotch, bordered faint violet. We are fortunate in being able to list this variety as it is being listed the first time in Scotland. Our stock came to us by mistake in shipping. The flowers are similar to Pimpernel but substance is better and better grower. L-\$2.00, M-\$1.25, S-75c, B-20c.

TAINUI (Mrs. Julyan, N. Z.) Another well recommended variety of Championship caliber from down under. The ground color is greenish yellow, overlaid orange scarlet with conspicuous blotch of dark red. Champion bloom at Christchurch 1933, S-\$5.00.

TAKINA (Burns, N. Z.) Another mammoth variety from New Zealand, having just recently received the Award of Merit at Ballaret Test Gardens, Australia, in the mammoth class. Mr. Burns makes the statement that this variety has grown up to 7 feet tall with 7 to 9 blooms open at once and 8 inches in diameter without forcing. The color is a pink lavender, this variety is a good propagator. As our stock is quite limited we must confine sales to one small bulb or one bulblet to each buyer. S-\$15.00, B-\$5.00.

TIP TOP (Pfitzer) Color is a warm red or scarlet, very tall-growing novelty carrying 7 to 8 wide open flat flowers of the Pfitzer type, very tall spike of 18 to 20 buds. L-\$3.50, B-50c.

WAIRAU (Mrs. Julyan, N. Z.) Large slightly ruffled variety. Ground color pale salmon intensifying to orange tint with a distinct border of lavender-grey, throat markings of cream suffused with crimson. 8 to 10 large florets open at one time, good strong grower. S-\$2.00.

WARRATAH (Errey) Outside portion of flower is brilliant orange scarlet, the center is crimson touched with cream, ten or more flowers of fine substance perfectly placed on tall erect spike. M-\$1.25, S-75c, B-20c.

SUNNYSIDE (Ph.) Reports differ on this variety here in the U. S. due mostly to the fact that this variety is slow in becoming acclimated. In Australia it has won all the major honors in test garden and show bench and is classed at the top as an exhibition flower. Think most growers were expecting too much in this flower as it is not as large as some of our own but few of ours will show a nicer spike formation or arrangement of flowers. The color is, with us, a cerise pink flecked deeper at outer edge of petals and shading to a pure white center. 10 to 12 flowers open at one time, makes a first class exhibition spike. **L-\$3.00, M-\$2.00, S-\$1.00, B-10 for \$2.00.**

***SUNSET (M)** Tall spike with many flowers of an orange apricot and is an excellent all purpose Gladiolus. **L-10 for \$1.50, M-10 for \$1.00, S-10 for 50c, B-100 for 75c.**

Join the American Gladiolus Society and become a member of our National Society, fee \$2.00, address R. Huff, Secretary, Goshen, Indiana.

New England Gladiolus Society is likely our most outstanding independent society in the U. S. and offers a year book along with the membership of \$1.00 that is worth many times the subscription price, Address C. W. Brown, Secretary, Asland, Mass.

Canadian Gladiolus Society offers for a fee of \$2.00, four quarterly issues instead of a single annual as has been issued in the past and we are sure each issue will be of interest to all growers of Gladiolus, address Mrs. J. A. Carleton, Secretary-Treasurer, Canadian Gladiolus Society, 166 Willow Road, Guelph, Ontario, Canada.
